PREFACE

CINL is the original CUMULATIVE INDEX TO NURSING LITERATURE. It offers an easy-to-find and easy-to-read authoritative subject-author reference to a broad selection of subject matter of importance to progressive nurses and related health scientists.

CINL is a guide to book reviews, pamphlets, illustrated material, films, filmstrips and recordings.

CINL is the only index to nursing literature for the years 1960 through 1965.

CINL journal coverage continues to grow as the editors find it possible to move forward toward the eventual coverage of all major nursing periodicals in the English language.

CINL indexers cover selectively for the nurse other ancillary serials including major medical journals. Approximately twenty-five per cent of the articles indexed are from nonnursing journals.

New titles indexed in the 1964-1966 multi-year Cumulation added since the 1961-1963 Cumulation include:

American Journal of Practical Nursing (1965)
The Australian Nurses' Journal (1964)
Bulletin American Protestant Hospital Association (1964)
The Bulletin Maternal and Child Health (1965)
Bulletin of the American College of Nurse-Midwifery (1964)
Canadian Hospital (1964)
Canadian Journal of Public Health (1964)
Cardiovascular Nursing (1965)
Frontier Nursing Service Quarterly Bulletin (1966)
Geriatric Nursing (1965)
The Hong Kong Nursing Journal (1965)
Hospital Medicine (1964)
Image (1964)
International Journal of Nursing Studies (1964)
Irish Nurse (1964)
Irish Nursing and Hospital World (1965)
The Jamaican Nurse (1964)
Male Nurses Journal (1966)
Mental Hygiene (1964)
The New Zealand Nursing Journal (1965)
The Nursing Clinics of North America (1966)
Nursing Homes (1964)
Nursing Journal of India (1964)
Nursing Notes (1964)
The Philippine Journal of Nursing (1966)
PHS World (1966)
Professional Nursing Home (1966)
Queensland Nurses Journal (1966)
Reports on Higher Education, WICHE (1964)
Santo Tomas Nursing Journal (1966)
SK & F Psychiatric Reporter (1964)
South African Nursing Journal (1965)
World Health (1964)
World Hospitals (1964)
The Zambia Nurse (1965)

The year in parenthesis following the journal title above indicates the year that the journal was added to those indexed in this multi-year volume even though indexing for this title might not appear in the Annual Cumulation of that date.

THE UNIVERSITY OF CHICAGO
DIVISION OF THE PHYSICAL SCIENCES
DEPARTMENT OF CHEMISTRY
CHICAGO, ILLINOIS 60637

TO THE EDITOR OF THE JOURNAL OF THE AMERICAN CHEMICAL SOCIETY
FROM THE DEPARTMENT OF CHEMISTRY, UNIVERSITY OF CHICAGO
CHICAGO, ILLINOIS 60637
U.S.A.
Dear Sir,
I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the paper of mine and my colleagues, entitled "The Kinetics of the Reaction of Nitrogen Dioxide with Carbon Monoxide," which appeared in the JACS of May 1964.
I am sorry that I cannot give you a more definite answer at this time, but the matter is being handled as rapidly as possible.
Very truly yours,
R. M. Noyes, Jr.
Professor of Chemistry
University of Chicago
Chicago, Illinois 60637

82

HOW TO USE THE INDEX

The CUMULATIVE INDEX TO NURSING LITERATURE is a subject-author (or name) index. In this volume, the 1964-1966 Cumulation, Volumes 9-11, as in all previous volumes, the subjects, authors (or names), and cross references are arranged together in one alphabet. The headings appear in full capitals. Entries under the headings are arranged alphabetically by the title of the articles.

Beginning with 1967, Volume 12, subjects and authors (or names) are filed separately. Subjects and cross references appear first. The author (or name) section, i.e., authors and the names of biographees, follows.

Frequently subject headings are divided, as

NURSES--BIOGRAPHIES

Ample use of "See" and "See also" references guide the user, as

Play See: RECREATION; RECREATIONAL THERAPY

PHYSICAL THERAPY See also: EXERCISE; HYDROTHERAPY; MASSAGE

Entries are not limited to a minimal indication of the general context of the article. Entries are made under all headings where material may be pertinent and which is not covered by appropriate cross references, and sometimes in addition to such cross references.

In the subject entries the name of the first author appears in parenthesis after the title.

In author entries the author's last name appears first and is followed by his initials, the title of the article, the abbreviated journal title, the volume, page, month, and year.

Example:

GOODE MA: The patient with a cerebral vascular
accident. NO 14:60+, Mar 66

Full titles for the abbreviated titles used in the entries are given in the List of Journals Indexed, in the front of the index. An added list of abbreviations of journal titles follows the List of Journals Indexed regularly in CINL. These are for ancillary journals from which articles have been selected for inclusion in the supplement or the cumulation at hand.

This is the first multi-year volume in which Book Reviews; Films, Filmstrips, Recordings, etc.; and Pamphlets are found in the appendix, not in the index proper. These are listed alphabetically by author or source.

The subject heading "Nursing Care Studies" was discontinued beginning in 1965, Volume 10. Nursing Care Studies are thereafter indexed only under the author and the subject, with the added descriptor (care st). In this multi-year Volume, 1964-1966, the same adjustment has been made for 1964 indexing.
